

## **MASTERS DIVISION PERFORMANCE POLICY**

The Sneds Tour strongly believes junior golf is more enjoyable for competitors when they are competing against juniors with similar ability levels. To ensure participants are competing in the proper division the Sneds Tour has developed a season long performance policy for the Masters Division.

**Boys 16 - 18 Masters Division**

**85**

**Boys 13 - 15 Masters Division**

**90**

**Boys 13 & U Masters Division**

**50**

**Girls 16 - 18 Masters Division**

**95**

**Girls 15 & U Masters Division**

**100**

Any Masters Division player who records TWO (2) tournament rounds HIGHER than the scores outlined above for his/her division, will automatically be moved to the Tour Division.

If a player who is moved to the Tour Division has already signed up for other Sneds Tour events, he/she will still be able to compete in the events they previously registered for given their new division is offered at the event. If these events do not offer their new division, the player will be able to transfer to a new event or a tournament refund can be issued for any remaining events the player will not be able to compete in or transfer.

The Sneds Tour staff reserves the right to waive the Masters Division Performance Policy at events if conditions warrant such action (i.e. bad weather).

Note: A tournament round is defined by any 9 or 18 hole competitive round during a Sneds Tour One-Day or Two-Day summer event (summer events run from late May thru mid July).
